

# Stay Competitive with a Customizable Kiosk for Your Brick and Mortar

If you're a retailer, restaurant, or other customer-facing businesses, you know how important it is to offer an engaging in-location experience. As soon as customers step through their doors, they expect to be entertained—and to find what they want, when they want it. Our Tyme kiosk gives you the tools you need to respond to the needs of your customers, no matter what they are. Here's how Tyme gives you an advantage over other brick and mortars.

 **CATEGORY**  
Interactive, self-service kiosk

 **FEATURES**  
Interactive screens, self-service options

 **SUBSCRIPTION REQUIREMENTS**  
Raydiant subscription  
Tyme subscription

## Pricing **\$29**/mo.

### GET ONE KIOSK THAT DOES THE WORK OF TEN

With Tyme, you get the functionality of a promotional, interactive, and self-service kiosk all in one. This customizable kiosk can be configured to visually guide customers through a new product's features, help them find the product to fit their needs, let them order an item online or check another store's inventory, and make a purchase. Whether you want to use it for marketing or commerce—or both—your Tyme kiosk is yours to customize as you see fit.

### OFFER THE SELF-SERVICE OPTIONS THEY'RE AFTER

Self-service kiosks are more popular than ever—and are quickly becoming the norm for brick and mortars. Many businesses use them as overflow self-service checkout stations, though many customers prefer them to standing in line and getting checked out by an associate. Customers love the ability to quickly find what they want on screen, order it, and pay for it. Restaurants and retailers have seen the time-saving benefits of self-service stations, which reduce customer wait time and offer the customer an engaging way to interact with their brand on their terms.

### SHARE THE CONTENT YOUR COMMUNITY WANTS

Use the Tyme platform with any Raydiant-enabled touchscreen, or with a floor-standing or countertop station (available for purchase through Raydiant). Each kiosk station can be configured as an interactive promotional display, a self-service kiosk (for orders and payments), or both. Raydiant customers can even switch the display's function back and forth, as needed.

### GIVE THEM A HANDS-ON, SELF-GUIDED TOUR

Bring your products and menu items to life with bold, self-guided kiosks your customers can peruse at their leisure. Bold, colorful graphics and videos on an interactive display draws customers in and gets them excited about what you have to offer. Personalize your displays to market your current promotion or dayparting menu. Use your kiosks to reduce order times and shorten checkout lines. Let customers use the kiosks to manage loyalty programs and sign up for special in-store events. There's so much you can do with Tyme.
